*(a) Requests for extension from this schedule will be considered by the town council and approval may be granted for good cause shown as determined in the sole discretion of the town council. Said request for extension shall be filed with the town by the contractor and the owner no later than 30 calendar days, ~~nor earlier than six months,~~ prior to the scheduled ~~completion~~ building permit expiration date. The request for extension shall include reasons for the necessity of granting an extension, a revised construction schedule, proposed nuisance mitigation measures, ~~and~~ a statement that first class mailed notice to neighbors within 300 ~~200~~ feet will be provided at least 25 days prior to the meeting at which the extension is to be considered, and a USPS Certificate of Mailing as proof of the mailed notice. In the event the town council determines that good cause is not shown for granting the extension, the council may deny the extension. In the event the town council grants an extension, it may impose conditions on the extension which may include the implementation of mitigation measures deemed appropriate by the council and the imposition of a fee as established by resolution by the town council for each day of the extension beyond the term set forth in the above stated construction schedule.*

(b) ~~In the event no request is made for extension of time from the above referenced schedule, the building permit shall be immediately revoked and all work shall cease and desist on the project. In order to resume work, the contractor and the owner must apply to the town council for an extension of time. The application for extension shall include reasons for the necessity of granting an extension of time, a revised construction schedule, proposed nuisance mitigation measures, and a statement that notice to neighbors within 200 feet will be provided at least 25 days prior to the hearing before town council to consider the extension of time. The town council, in its sole discretion, may grant or deny the extension. In the event the town council grants an extension, it may impose conditions on the extension which may include the implementation of mitigation measures deemed appropriate by the council and the imposition of a fee as established by resolution by the town council for each day of the extension beyond the term set forth in the above state construction schedule. If an extension of time is granted, a new permit application is required and a permit reactivation fee shall be paid.~~

(c) Failure of the permit holder and/or the property owner to complete the construction within the preceding time table or within the time extension granted by the town council constitutes prima facie evidence that the building project has not been commenced or has been suspended or abandoned. All permits will be terminated, and all work at the site will stop immediately until the applicant and owner apply for and receive a reinstatement of the permit by the town council. If conditions are attached to the re-issuance, the permit may be reissued by the building official only upon continued conformance to the conditions established by the town council. Any conditions attached to re-issuance are conditions of all applicable permits and applicant and owner accept such conditions upon acceptance of a permit. The issuance of the certificate of occupancy or completion will be withheld until any fees incurred under this section are paid. If the town council does not approve the extension of time, applicant and owner may be required by the town council to remove all evidence of construction, and ensure that the project conforms to all applicable provisions of the code. Failure to cease construction or conform to all codes constitutes a violation and will be referred to the town's code enforcement board.

(d) Town staff may choose to administratively extend building permits up to thirty (30) days, based upon good cause shown, to allow an applicant to schedule an appearance before the town council, or to complete a project, without appearing before the town council. This administrative approval cannot exceed thirty (30) days."

The value will be provided by the property owner and contractor and verified by the town

building official. This fee is in addition to required permit value updates and the final cost certification."

**Section 5.** Severability. If any provision of this Ordinance or the application thereof is held invalid, such invalidity shall not affect the other provisions or applications of this Ordinance which can be given effect without the invalid provisions or applications, and to this end the provisions of this Ordinance are hereby declared severable.
