Question applies to Investment Advisory Committee

Why are you interested in serving on the Investment Advisory Committee?

I have owned a house in Palm Beach for 19 years and love the town and want to add to its financial independence going forward. I plan for the first time to also become a full time resident of Palm Beach this year.

Question applies to Investment Advisory Committee

How many meetings of the Investment Advisory Committee have you attended in the past two (2) years? *

0

Please indicate if there are any periods of time for which you will be unavailable for meetings.

Question applies to Investment Advisory Committee

Please describe your current or prior investment experience, and describe any fixed investment experience you may have.

I have owned an RIA for 17 years and also am a portfolio manager for a US Small and Mid-Cap Value alternative fund with returns roughly twice the Russell 2000 and a downside capture of ~75%. I have been in the business for thirty years and enjoy managing portfolios. I love investing and managing funds with an eye to the downside and making people and institutions superior risk adjusted returns.

This document is not intended and should not be used or construed as an offer to sell, or a solicitation of an offer to purchase, interests in The Plato Fund LP (the "Fund"). Such offer may only be made pursuant to the Fund's confidential private offering memorandum. The information contained herein is provided for informational purposes only, is not complete, and does not contain certain material information about the Fund, including important disclosures relating to the risks, fees, expenses, liquidity restrictions and other terms of investing in the Fund, and is subject to change without notice. The information contained herein does not take into account the particular investment objective or financial or other circumstances of any individual investor.

As with any investment vehicle, past performance cannot assure any level of future results. There is no assurance that the Fund will necessarily achieve its investment objective or that it will or is likely to achieve results comparable to those shown herein, or will make any profit, or will be able to avoid incurring losses. An investment in the Fund will be subject to a variety of risks which are described in the Fund's offering memorandum.

The performance information referred to herein has been prepared by or on behalf of the Fund's investment adviser, and has not been independently audited, except with respect to certain audited year-end data. Performance information is shown net of the Fund's expenses, management fees and incentive allocation. Performance information includes the reinvestment of all dividends and other income derived from, and gains from the sale of, the Fund's portfolio positions.

This document is provided to you on a confidential basis and is intended solely for the information of the person to whom it has been delivered. Accordingly, this document may not be reproduced in whole or in part, and may not be delivered to any other person without prior written consent of Alexander Capital Advisors, LLC.

The performance information herein has been prepared by the general partner, and has not been independently audited. Such information is believed to be accurate but is not guaranteed. Performance information is shown net of the Fund's management fees (1% per annum), but not net (i.e., is shown gross) of the general partner's special allocation (20% of net profits). As such, the actual performance experienced by an investor was less than the returns shown in this document (and any attached performance reports) if and to the extent that a special allocation was made for the applicable period(s) with respect to the investor's capital account. The actual net performance of an investor's investment in the Fund (with accrual for the special allocation) is reflected in the quarterly account statements issued by the Fund's administrator. Performance information includes the reinvestment of all dividends and other income derived from, and gains from the sale of, the Fund's portfolio positions. Market index information shown herein is included to show relative market performance for the periods indicated and not as standards of comparison, since indices are unmanaged, broadly based and differ in numerous respects from the Fund. Market index information was compiled from sources that the Fund's general partner believes to be reliable. However, the general partner does not guarantee the accuracy or completeness of such data.

As with any investment vehicle, past performance cannot assure any level of future results. There is no assurance that the Fund will necessarily achieve its investment objective or that it will or is likely to achieve results comparable to those shown herein, or will make any profit, or will be able to avoid incurring losses.

Overview: Investment Thesis and Strategy

Investment Thesis

- Superior historical risk adjusted returns with a low correlation and downside capture compared to the major indices
- Consistent process and portfolio management team with a twelve-year track record
- Emphasis on transparency and safeguards throughout the process
- Low-cost fee structure that provides liquidity and clarity for investors (1% management fee and 60 day written notice). Closed to new capital at \$400mm
- Disciplined, consistent leadership byway of a 25-year industry veteran as the portfolio manager since the fund's inception
- Proprietary trained analysts, either enrolled in or having completed the CFA program, undertaking granular security and market analysis

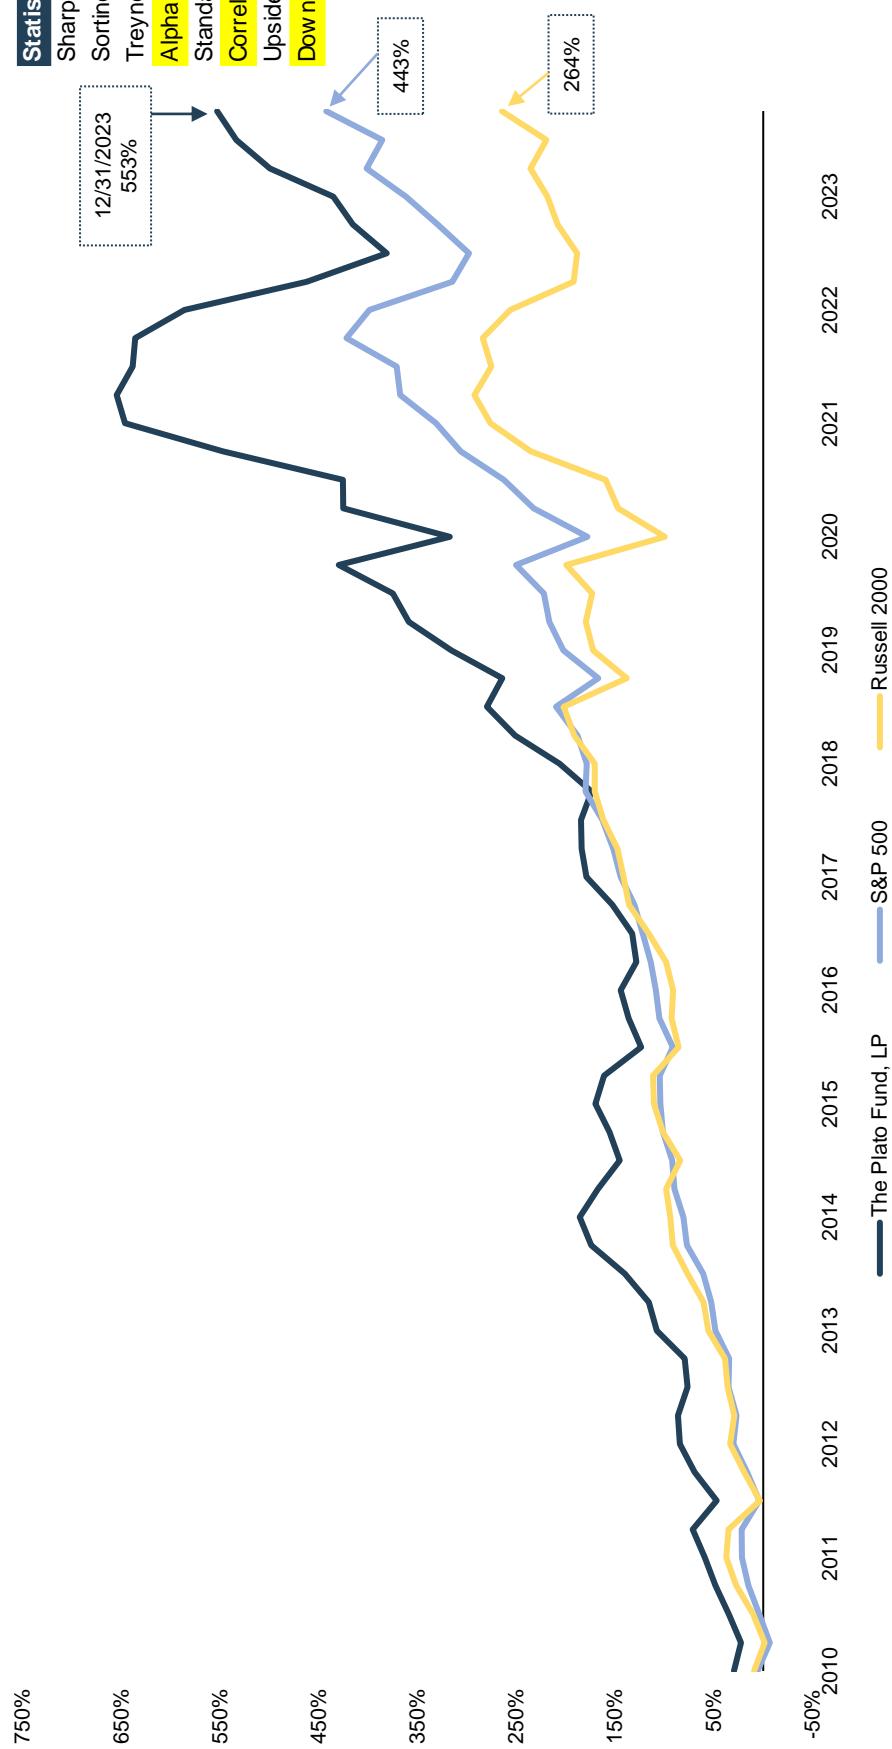

Fund Strategy

	Target Sector Independent Goal of creating diversification and returns uncorrelated with the major indices
	Small and Mid Cap Domestic Equities Concentrated portfolio: 9-12 names with a target market cap range of \$400mm-\$4B
	Long Term Value Creation Disciplined stock selection designed to produce superior, long term, uncorrelated returns
	No Leverage Utilizing the process itself to generate returns rather than taking on additional risk
	Hedging & Options Careful use of options to reduce risk and to take advantage of market inefficiencies
	Tiered Sell Strategy Disciplined sell process with the goal of minimizing risk and downside capture

At the end of December 2023, the Russell 2000 had a Price-Earnings multiple of 14.9x, compared to the average of 17.9x over the last quarter-century. While returns have just started to rebound, multiples have remained compressed, creating a considerable number of buying opportunities.

Operating Model

The Plato Fund seeks investment opportunities in US listed companies, drawing exhaustive research, disciplined risk management, and strict adherence to our unique strategy to build wealth for our clients

- The Plato Fund's small and mandated limited size of \$400mm facilitates analysis of securities that are typically ignored by major funds and Wall Street analysts
- As the bias toward multibillion dollar funds continues to grow, the opportunity for smaller research driven funds becomes more significant

- The firm's mission is to have a positive impact on the lives of our clients that will extend to future generations. This is reflected in our stakeholder mentality, unwavering dedication to high standards and our emphasis on developing long-term relationships

Single Point System Executor

We believe the consistency of the process and the single point investment selection leadership over the past thirteen years increases the probability that future returns will be similar to prior returns

Analyst Compensation Incentives

Fund holdings are not disclosed to analysts in order to eliminate inherent bias and incentivize objectivity

Disciplined Buy and Sell Parameters

New positions are carefully selected for downside capture and upside potential. Closing of each position is done with a consistent and disciplined approach

True 1% Management Fee with Highwater Mark

All administrator, auditing, and attorney fees are paid by the General Partner. No gates, hold backs, or side letters
