Subject: The new club at 264

Dear Council members -I am vehemently opposed to any business or club valet parking vehicles on the Sea streets as proposed by the new owner of restaurant 264. The Sea streets are quiet residential areas and as such must be respected. The audacity of a club owner to even suggest valet parking is outrageous . The residents of Seaspray in particular are most respectful of the neighborhood and will hire valets to park cars off the street if they are entertaining a large group of guests. In no way should our street be afflicted by the parking of cars -and the inevitability if this occurring throughout the evening and into the wee small hours of the morning - we invested in our properties because of the serenity of the island and the sense of quietude in all our surroundings . I urge the council to disapprove this proposal and suggest the owner find appropriate parking elsewhere -I.e Club Colette etc. - Sally McDermott -252 Seaspray Avenue.
