Subject: Fwd: Rotary Foundation Palm Beach, Proposal for Periodic Archaeological Monitoring of Flags for Heroes Event in Medians of Royal Poinciana Way, Palm Beach

Josh:

The Archaeological & Historical Conservancy based in Davie, Florida has decided to donate their intermittent observation services on the day in which the flags will be installed. Accordingly, there is no proposal to provide the Town. See email chain below.

I still have not received the 2005 Archaeological Report prepared for the Town by the Archaeological & Historical Conservancy. I want to give that to John Lindgren as he only has two old rickety maps from the report.

Thank you Thomas.

The AHC will gladly volunteer its time for this project. No proposal necessary.

Best regards,
Ryan

Thomas,

Thank you for sending the information. I'm assuming the spikes will be hammered into the ground and then when all is said and done, manually pulled up and out of the ground. Is that correct?

Best regards,
Ryan

Thank you for contacting me.

I prefer an estimate so that I can use that with the Rotary Foundation for budget purposes. On July 3 we will be installing flags in two large medians for 8-9 hours. See attached. Ignore the incorrect reference to "West Palm Beach."

The attachment shows maximum median capacity based on a 5 foot grid. The grid has been changed to a 6 foot grid with up to 500 flags in the east median (Median #2) and, if needed, up to 250 flags in the west median (Median #1). The last slide shows how the flags will be displayed.

Flags are installed into a 12 inch spiked flag holder placed into the ground.

This video link gives you a good visual of the final product and program.

I hope this helps you with the proposal. Let me know if you need anything else.

Good morning Tom,

Bob has asked me to put together a monitoring proposal for this project. Sorry for the delay in getting this to you. As you may know, monitoring is conducted on an hourly basis in response to the ground disturbing activities. We can leave the monitoring cost as TBD, or if you would prefer we can estimate the hours, thus cost, based on your estimate of time. Please advise. Also, it would help a great deal if you have a pdf plan for the proposed work for me to reference in the proposal?

Thank you very much. I will be working on the proposal and will also track down the previous report.

Best regards,

Ryan

My apologies Tom. I was in a car accident on the 15th and just starting to fully recover. I am asking the Assistant Director Ryan Franklin to prepare a proposal for tomorrow and scan the 2005 report.
