RE: Resolution to Approve Proposal for Australian Avenue Watermain Replacement – Engineering Design Services as prepared by Kimley-Horn and Associates in the amount \$82,292 and a project budget of \$94,300, **Resolution No. 14-2020**

DATE: 26 February 2020

STAFF RECOMMENDATION

Town staff recommends that Town Council approve Resolution No. 14-2020, Proposal for Australian Avenue Watermain Replacement – Engineering Design Services as prepared by Kimley-Horn and Associates in the amount \$82,292 and a project budget of \$94,300.

GENERAL INFORMATION

The City of West Palm Beach (City) has identified a need to replace approximately 3,400 linear feet of the existing 6-in ductile iron pipe (DIP) watermain along Australian Ave from South Lake Drive to South Ocean Blvd in the Town of Palm Beach. We understand that this watermain was installed prior to 1940 and is included in the City's replacement program. The City desires to remove the existing watermain and replace it with an 8-in or 12-in watermain. An Interlocal Agreement exists between the Town of Palm Beach and the City of West Palm Beach to fund the design and construction of these improvements. The Town has asked Kimley-Horn to provide design, permitting, and bidding services for the project. It is understood that the Town will administer the design and construction of these watermain improvements for the City in conjunction with the undergrounding program.

Purchasing accessed the Professional Service Agreement with Kimley-Horn and Associates to obtain the proposal.

FUNDING/FISCAL IMPACT

Funding is included in the Capital Improvement Fund and the Town will be reimbursed by West Palm Beach for this expenditure.

PUBLIC WORKS REVIEW

This item has been reviewed by the Public Works and approved as recommended.

TOWN ATTORNEY REVIEW

This format has been utilized by the Town in previous recommendations and was approved by the Town Attorney.
