Dear Members of the Landmarks Commission,

We received the Town notice related to the project located at 206 Phipps Plaza. The project is situated along Seaview Avenue and proposed two curb cuts and three garage openings at the north side of the building.

Seaview is a narrow, one way street which has school traffic for pick up and drop off of two schools, and students commuting by bike or by foot.

We would like to express our concerns related to the potential safety issues it may have on any members of the community at large.

Thank you for your time and consideration.

Sincerely,

Fanning Hearon
Head of School
