Dear Mayor and Council,

I hope you will consider deferral of the above-mentioned agenda item in order to permit all noticed residents, as well as the general public, adequate time to review, analyze, and respond to the requests and claims in the application. Given that there are 500+ pages of relevant documents (the 250 page application, the Kimley-Horn study, the Worth Ave. Guidelines, relevant sections of the town Ordinance and other background documents), it seems most unreasonable to expect not only the hundreds of noticed neighbors but also the general public to be aware of and able to consume the materials in time for next week's hearing, especially since they were submitted at the start of the holiday weekend. Due to the visibility, fame, and popularity of Worth Ave., every resident has a stake in the outcome of this application because its approval could have far-reaching consequences for the Avenue and for the quality of life of all residents.

Respectfully,
Carol Lecates
