RE: NORTH END ZONING CHANGES

Dear Members of the Town Council,

I live on Laurie Lane, a street that has only two homes including mine. I border Debra and Onondaga two other streets with small scale homes and narrow lanes.

We bought a home in the North End because we enjoy the quiet, neighborly and sports-friendly ambiance of this low key neighborhood. I grew up in Palm Beach and have returned as an adult to again enjoy the benefits of the Palm Beach life style.

However, the constant construction in the North End is disturbing. I love to see the renovation of the older houses. However, many of the newer homes seem out of scale and massive compared with the existing homes.

We have written to ARCOM many times regarding the new construction in our North End neighborhood that we feel is not appropriate for these small streets. We now recognize that changes to the residential zoning code is what is needed to "fix" the problem.

We encourage you to analyze the code problems and make the necessary changes to guarantee our continued enjoyment of life in the North End.

Yours truly,

Tracy Huntington
