RE: Saturday Work

For a town that was built by free enterprise industrialists and applauds the accomplishments of those Fortune 500 leaders as residents, the current issue of stopping labor on interior works on Saturdays is difficult to understand.

The chamber has 63 member companies that would be adversely impacted by this move. Free enterprise encourages labor, supports the efforts of those who are willing to work and who take pride in their contributions. The economy may be booming for some, but for those hourly workers, having additional work denied them can be devastating.

Interior work, whether painting, delivering goods, installing drapes or washing windows cannot disturb the comfort and convenience of residents in a resort community, many of whom travel in the summer months.

The chamber would encourage careful reconsideration of this move inasmuch as it runs counter to the free enterprise system of America.

Sincerely,
