Dear Mayor Moore, Council President Zeidman, and Town Council Members.

Treasurer

Skip Aldridge

The Board of the Directors of the Citizens' Association of Palm Beach has passed a resolution requesting that multi-family buildings should be granted exemption from a proposed Town ordinance that would prohibit Saturday inside work during season in the Town of Palm Beach

General Counsel

Stephen Jacobs

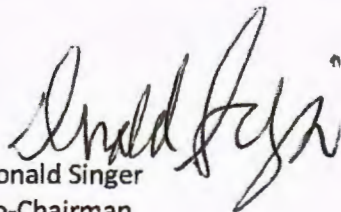

Multi-family buildings (Co-op and Condo units) have their respective articles of incorporation, by-laws and rules which provides regulatory and enforcement mechanisms to operate effectively in their own, unique environments. This will also allow the necessary flexibility required in multi-family buildings.

Though the Citizens' Association represents most of the multi-family buildings south of Sloan's Curve, we respectfully suggest that the exemption should apply to all multi-family buildings in the town of Palm Beach.

Thank you for your consideration.
