

To Town Council

I am writing to let you know I oppose the application submitted by The Four Seasons and Boucher Brothers for a Special Exemption Request to operate a beachfront concessionaire. I believe the approval of such an action will be a dangerous precedent for the beaches of Palm Beach. The Four Seasons has operated very effectively and profitably for many years without encroaching upon the beach. The over-development of the beachfront area is both not necessary and an infringement on the public's access to the beach.
