RE: Playhouse Approval

At last! Plans for the playhouse are incorporating the best of all worlds – opening the façade to better showcase the architectural genius of John Volk, while bringing a state-of-the-art venue to residents and visitors. The highest and best use of the property will be realized while preserving the integrity of the site.

The chamber joins the chorus of supporters in applauding your timely approval of the plans: open waterfront, local investment, expanded retail and greater support of the many non-profits who owe their success to your residents' generosity.

The playhouse will be more than a theatre – truly a community center that will provide the best in programming, engagement and the comforts and conveniences that have been the hallmark of the town's history and mission.

We look forward to the project's approval and grand opening.

Sincerely,

A handwritten signature in black ink, appearing to read "Laurel Baker", written over the word "Sincerely,".
