

TOWN OF PALM BEACH OPEB TRUST

INVESTMENT POLICY STATEMENT

I. PURPOSE OF INVESTMENT POLICY STATEMENT

The OPEB TRUST Board of Trustees (“Board”) maintains that an important determinant of future investment returns is the expression and periodic review of the Town of Palm Beach OPEB System (“the OPEB System”) investment objectives. To that end, the Board has adopted this statement of Investment Policy and directs that it applies to all assets under their control.

In fulfilling their fiduciary responsibility, the Board recognizes that the OPEB system is an essential vehicle for providing income benefits to retired participants or their beneficiaries. The Board also recognizes that the obligations of the OPEB System are long-term and that investment policy should be made with a view toward performance and return over a number of years. The general investment objective is to obtain a reasonable total rate of return - defined as interest and dividend income plus realized and unrealized capital gains or losses - commensurate with the Prudent Investor Rule and any other applicable ordinances and statutes.

Reasonable consistency of return and protection of assets against the inroads of inflation are paramount. However, interest rate fluctuations and volatility of securities markets make it necessary to judge results within the context of several years rather than over short periods of five years or less.

The Board will employ investment professionals to oversee and invest the assets of the OPEB System. Within the parameters allowed in this document and their agreements with the Board, the investment management professionals shall have investment discretion over their mandates, including security selection, sector weightings and investment style.

The Board, in performing their investment duties, shall comply with the fiduciary standards set forth in Employee Retirement Income Security Act of 1974 (ERISA) at 29 U.S.C. s. 1104(a) (1) (A) – (C). In case of conflict with other provisions of law authorizing investments, the investment and fiduciary standards set forth in this section shall prevail.

II. TARGET ALLOCATIONS

In order to provide for a diversified portfolio, the Board has engaged investment professional(s) to manage and administer the fund. The investment manager(s) are responsible for the assets and allocation of their mandate only and may be provided an addendum to this policy with their specific performance objectives and investment criteria.

The Board has established the following asset allocation targets for the total fund:

Note: Allocation to Pvt. Equity and Real Estate shall be based on invested capital.

1. ¹Benchmark and allocation targets to these asset classes will default to “core fixed income” if these classes are not funded

2. The “strategy index” for alternative assets is defined as the most appropriate index, combination of indices, or absolute return target for the investment(s) in question. The strategy index will be determined at the time of engagement based on the specific investment’s long-term objective, prospectus, and/or governing documents and reflected in performance evaluation reports.

The Board of Trustees, with assistance from the Consultant, will monitor the aggregate asset allocation of the portfolio, and will rebalance to the target asset allocation based on market conditions. If at the end of any calendar quarter, the allocation of an asset class falls outside of its allowable range, barring extenuating circumstances such as pending cash flows or allocation levels viewed as temporary, the asset allocation will be rebalanced into the allowable range. To the extent possible, contributions and withdrawals from the portfolio will be executed proportionally based on the most current market values available. The Board does not intend to exercise short-term changes to the target allocation.

The Office of the Town Finance Director is authorized to move funds as required within the existing investment structure and its established investments as required for the maintenance of the target allocation, and for the management of OPEB System Cash Flow.

III. INVESTMENT PERFORMANCE OBJECTIVES

The following performance measures will be used as objective criteria for evaluating the effectiveness of the Investment Managers.

A. Total Portfolio Performance

All portfolios are expected to rank in the top 50th percentile of the appropriate peer universe over three and five-year time periods.

D. Real Estate Performance

The overall objective of the real estate portion of the portfolio, if utilized, is to add diversification and another stable income stream to the total fund. The real estate portion of the total fund, defined as core, open ended private real estate, is expected to perform at a rate at least equal to the NFI-ODCE Fund Index (EW) and rank in the top 50th percentile of the appropriate peer universe over 5-year time periods.

E. Alternative and Other Non-Traditional Asset Performance
