Dear Members of the Landmarks Preservation Commission:

I am writing to offer my support for Palm Beach Day Academy's proposed parking project on Seaview Avenue

As a PBDA trustee/parent and town resident, I feel that this project is critical to improve the parking situation on Seaview Avenue. The school has long relied upon on-street parking which has become increasingly scarce. Also, nearby office buildings have eliminated or reduced the parking leases that PBDA held for teacher use during the school day. Although the school will still require some on-street parking, the project will provide much needed relief for the street.

The school has worked with architects from Nievera Williams to construct a design that fits with the aesthetics and standards of the Town of Palm Beach. We have also incorporated feedback received including minimizing the loss of green space and concerns around drainage.

Thank you for your consideration of this project.

Sincerely,

Grant Mashek  
President, Board of Trustees  
Palm Beach Day Academy Inc.
