Question applies to Architectural Review Commission (ARCOM)

Why do you feel you are qualified to serve on the Town's Architectural Commission?

I have an extensive background in "Housing/Building/Real Estate" that allows me to objectively review the projects presented. I am also a Full Time resident and am the 3rd generation of my family to call Palm Beach Home. Having served for 5 years and have demonstrated my ability to work in a professional manner with both the applicants and my fellow commissioners. I am diligent in my preparation and I believe fair in my evaluations. I firmly believe it is important to preserve the ambiance, culture and beauty of our town and I fully understand that additions/renovations/restorations and new construction are always going to occur. It has been a privilege to work with all involved to strike a balance that works to enhance the beauty of our town while protecting its history.

Question applies to Code Enforcement Board

Why do you feel you are qualified to serve on the Town's Code Enforcement Board?

My diverse background has trained me to review, understand, assess and make critical decisions. These are all skills that will play well on Code Enforcement. I am known to be someone who treats everyone equally and endeavors to move conversations forward in a positive manner. These are all qualities that will contribute to the board.

Question applies to Planning and Zoning Commission

Why do you feel that you are qualified to serve on the Town's Planning and Zoning Commission?

I have a very extensive understanding of the construction/housing industry. I'm a resident and acutely aware of the challenges of the island and the delicate balance we deal with as a barrier island. I am not anti growth and believe it needs to be done in a manner that preserves the beauty of the town. That is accomplished by careful evaluation of the way we use our land. There is a balance to be struck between growth and preservation. No matter where one stands unless we properly plan and zone for our future we will continually be faced with requests for Variance etc. Not that those requests will go away completely. I get that and have the ability to understand the process, I have taught urban Development courses and know how critical planning for the future and making needed adjustments is.
