Good afternoon to all,

I am very concerned that if the above referenced proposal passes. It have will a negative impact on me, my neighbors, my street, and I believe our community as a whole. Why ? To me it's very simple. More noise, more traffic, more lights, less green space and last but not least, the potential for nighttime use by other commercial entities such as bars, restaurants, private clubs etc.. All of which will only exacerbate above.

Winston Churchill once said " Never negotiate with a Crocodile, as you will only accomplish to be the last one eaten"
. Take a good look at what's happened to the North End in the last 20 years.

I believe most of us/ for the benefit of all of us want to preserve as much green space as possible. We have an opportunity to do just that by saying no to this proposal.

Thank you for your time and commitment...

J Richard Allison
