Palm Beach, FL 33480

To: Town of Palm Beach

This past summer we planted a large Bismarck Palm at the front of the property 217 Mockingbird Trail, Palm Beach, FL 33480, unfortunately it died last week and we are hoping we can replace it during this time of the year. We understand its not the right season to do it, but our client just built this beautiful home and landscape and does not want to be looking at a dead palm all Season. Therefore we are requesting your permit to proceed with the above mentioned work. In order for us to do such job we will be using a truck and trailer not grater than 30 ft in length, (pictures attached). The tree being replaced is a Bismarck Palm 8' CT 16' OA. This type of work cannot be performed from on site because of the type of driveway the house has. The work will be completed in 4 hours or less with the use of the ROW, 40 ton crane, pick up truck and trailer. If approved the work can be completed whenever is good for the town.

Thank you for your consideration.

Kind regards

*Ivan Romo R.*
