STAFF ANALYSIS

The subject property is two-story residence, currently under construction. Approval for the house and landscape was granted at the April 2021 ARCOM meeting (B-0122021). The application is proposing to place the previously approved driveway gate 10 feet from the edge of curb, in lieu of the 18 feet required.

The applicant is proposing to install a pair of swing gates at the motor court entrance directly off the T-end of Middle Road for security which will have the following setback 10'-0" from the street pavement where 18'-0" is required. Since the site is located off of a cul-de-sac, the required setback may be reduced provided if approved as a Special Exception request to be reviewed by Town Council. The site is isolated from traffic and abuts the R-A zoning district, which typically are estate homes with gates. The gate has designed that is commensurate with the design of the approved residence and has been reviewed and approved by the Chairperson of ARCOM.
