STAFF ANALYSIS

This application is presented to the Architectural Commission to consider whether all of the criteria in Sec. 18-205 have been met. A preliminary review of the project indicates that the application, as proposed, appears to be consistent with the Town zoning code.

The application is for the exterior renovations of an existing retail space in the Esplanade facing Worth Avenue. The scope of architectural work include converting the shell space left behind from the former occupant into Lugano Diamonds and the use of the space will remain as retail. The interior of the space will be fully renovated to the Lugano concept. Some exterior finishes include alterations of existing accent walls to be replaced, storefront mullion location will be relocated, and the existing signage band will be painted to match the existing façade White finish. All door locations will remain the same except for the Worth Avenue single door which is proposed as a new double door in line with adjacent tenant entry doors. New signage is proposed consistent with the size regulations of the Code.

This application is presented to Town Council for review and approval for two (2) Special Exception requests. The first is for the purpose of obtaining a new business tax receipt for the interior buildout for a new luxury jeweler. The existing retail shell at Suite 137 at 150 Worth Avenue, the Esplanade, is 4,528 SF, in a space formerly occupied by the high end clothing and accessory goods, Gucci. The retail space was designed as such, and no new square footage is being constructed, but Sec. 134-1162 of the Code, requires that the new occupant of the space, the owner or tenant of a property, located within the C-WA district, to receive approval by the Town Council. The applicant has been advised that the tenant will be responsible for providing evidence of Town serving nature of business for BTR licenses renewal. Staff is fully supportive of the application and the applicant received approval at the July 12, 2023 TC meeting. The second request is to allow lighted or illuminated signage has been withdrawn by the applicant.

CONCLUSION:

Approval of the project will require one motion to be made by the Commission: (1) for the overall design of the project in accordance with the criteria, subject to any imposed conditions.
