Re: LOI for 340 Royal Poinciana Way – Cartier
Zoning Case Number: ZON-24-066

We are pleased to submit the accompanying documents and drawings in connection with our application for Special Exception Approval to allow the existing Cartier boutique to move from the main Plaza building to a larger space in the Playhouse building within The Royal Poinciana Plaza property at 340 Royal Poinciana Way, Palm Beach, FL (the "Property"). Cartier is a luxury jeweler that was previously located on Worth Avenue for many years, and subsequently moved to the Property in 2021. The existing Cartier space in the main Plaza building will be vacated once the proposed new space is opened in the Playhouse building.

The project requires Special Exception Approval for the proposed 3,744 square-feet of retail space for Cartier within the previously approved Royal Poinciana Playhouse building, which exceeds the 3,000-maximum square-feet permitted for an individual retail use in the C-PC (Planned Center District) zoning district. A town-serving document has been crafted and included in this submittal. The project also includes a minor exterior change for the addition of a south-facing service door and proposed business identification signage, which will be reviewed through the staff administrative approval process.

Criteria for Approval of Application

A. Special Exception Approval in accordance with Section 134-229.

- (1) The use is a permitted special exception use as set forth in article VI of this chapter.
- (2) The use is so designed, located and proposed to be operated that the public health, safety, welfare and morals will be protected.
- (3) The use will not cause substantial injury to the value of other property in the neighborhood where it is to be located.

- (4) The use will be compatible with adjoining development and the intended purpose of the district in which it is to be located.
- (5) The use will comply with yard, other open space, and any special requirements set out in article VI for the particular use involved.
- (6) The use will comply with all elements of the comprehensive plan.
- (7) The use will not result in substantial economic, noise, glare, or odor impacts on adjoining properties and properties generally in the district.
- (8) Adequate ingress and egress to property and proposed structures thereon and off-street parking and loading areas will be provided where required, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe.
- (9) Signs, if any, and proposed exterior lighting with reference to glare, traffic safety, and economic impact shall be compatible and in harmony with properties in the district.
- (10) Location, availability and compatibility of utility service for the use shall be satisfactory to ensure health and safety.
- (11) Refuse and service areas for the use shall not adversely affect automotive and pedestrian safety and convenience, traffic flow and control, or access in case of fire or catastrophe.
- (12) In all districts except the C-OPI district, and also with the exception of hotel, motel and timeshare uses, the proposed special exception use will not attract the principal portion of its customers/clients from off-island locations. The applicant shall submit evidence satisfactory to the town council that not less than 50 percent of the customers of the proposed use will be town persons. Evidence submitted in support of this contention shall include credible data or information suitable for review by the town to determine the credibility and the appropriateness of the applicant's conclusion. The submittal shall include a description of the types of information used and the methodology employed to arrive at the conclusion. Information used shall include, but shall not be limited to, lists of customer/client addresses or certification thereof by an independent certified public accountant approved by the town, market studies prepared by independent professional firms, or data from similar operations under the control of the applicant. The town may in the future require the applicant to demonstrate to the satisfaction of the town council that the special exception use is continuing to be town-serving.
- (13) If historic/specimen trees are located on the subject property, the location of said historic/specimen trees shall be identified on a signed and sealed survey. In addition, adequate landscaping, screening and barricade protection of

historic/specimen trees shall be demonstrated to be provided as required in this chapter.

- (14) The proposed use will not place a greater burden than would be caused by a permitted use on municipal police services due to increased traffic or on fire protection services due to the existence of or increased potential for fire/safety code violations.

Per Section 134-1259(a)(11), Code of Ordinances, Special Exception approval is required for a retail business that exceeds 3,000 square feet of gross leasable area. Cartier is a permitted special exception use that is currently operating on the Property, but now wishes to increase its retail space area from 1,881 square feet to 3,744 square feet of GLA within an area of the existing Playhouse building. No change is proposed to the building footprint. A luxury boutique jeweler catering to the needs of the Town's residents and visitors poses no threat to the public's health, safety, welfare, and morals, will not adversely affect property values in the area, and is consistent with the Town's Comprehensive Plan in that it is a "town serving" retail business. Upon it's reopening, Cartier will compile data to demonstrate that the majority of its customers are Town residents or out-of-town visitors.

In conclusion, Cartier has demonstrated since its opening on Worth Avenue and subsequent move to the Property that it is compatible with the other high-end retail uses in the Town and at the Property. By its nature, a luxury boutique such as Cartier does not produce visual, noise or odor pollution. All other criteria for approving a special exception use are not affected by the proposed application, because no changes are proposed to the ingress and egress onto the Property, and sufficient utilities and services are available to support the use, which already exists on the Property.

Attached as Exhibit "A" is the site history for the Property.

Sincerely,

James M. Crowley
