PLANNING, ZONING, & BUILDING DEPARTMENT  
PZ&B Staff Memorandum: Architectural Commission

FROM: Wayne Bergman, MCP, LEED-AP *WLB*  
Director PZ&B

SUBJECT: ARC-24-0113 1600 S OCEAN BLVD

MEETING: JANUARY 29, 2025 ARCOM

**ARC-24-0113 1600 S OCEAN BLVD.** The applicant, PB Pavilion Trust (Peter A. Flanagan, Robert G. Simes, & Michael Vineberg as Trustees), have submitted an application requesting Architectural Commission (ARCOM) review and approval for modifications to existing landscape and hardscape and modifications to the driveway gates and pedestrian gate at an existing single-family residence with ARCOM approved renovations and additions underway.

Applicant: PB Pavilion Trust  
Landscape: Nievera Williams Design (Mario Nievera)  
Legal: Kochman & Ziska (Maura Ziska, Esq.)

**HISTORY:**

At the June 26, 2019 ARCOM hearing, an application (B-37-2019) for a second floor addition and basement addition to an existing two-story residence was approved (6-1).

At the May 24, 2023 ARCOM hearing, an application (ARC-23-067) for modification to the previously approved additions for fenestration changes and a second story addition was reviewed and partially approved, with the remainder of the application approved at the July 28, 2023 meeting.

At the November 20, 2023 ARCOM hearing, an application (ARC-23-120 ZON-23-088) for one-story additions was approved (7-0) to the previously approved two-story residence.

**THE PROJECT:**

The applicant has submitted plans, entitled "1600 S. OCEAN BLVD." as prepared by **Nievera Williams Design**, uploaded January 09, 2025.

The following scope of work is proposed:

- Overall landscape enhancements.
- New vehicular entry gate and columns.

Site Data			
Zoning District	R-A	Future Land Use	SINGLE-FAMILY
Total Lot Size	107,288 SF		
Open Space Alteration	12.05% (11,022 SF)	Total Amount of Open Space	91,467 SF

<b>Overall Landscape Open Space</b>	Req'd: 50% (53,644 SF) Exist: 53.2% (57,077 SF) Prop'd: 50.35% (54,021 SF)	<b>Front Yard Setback Open Space</b>	Req'd: 45% (3,863 SF) Exist: 90.6% (7,785 SF) Prop'd: 90.6% (7,785 SF)

<b>South</b>	1616 S Ocean Blvd   Residence / R-A		
<b>East</b>	Atlantic Ocean		
<b>West</b>	Lake Worth Lagoon		

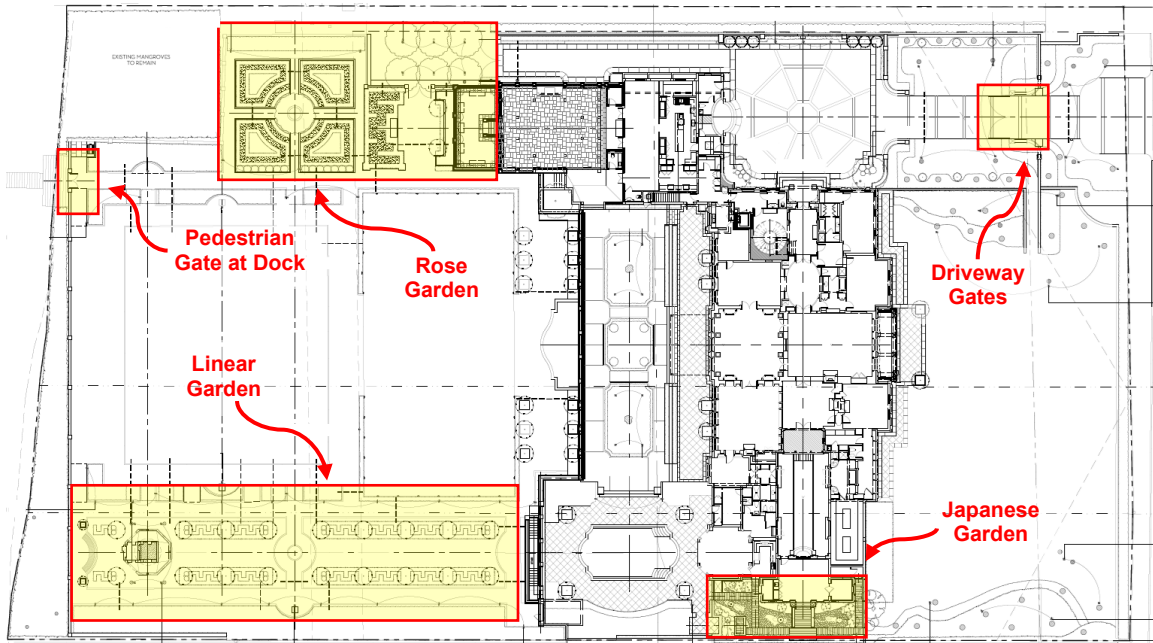

### **STAFF ANALYSIS**

The applicant is proposing modifications to landscape and hardscape at an existing ocean-to-lake estate which is currently under construction for previously approved additions and renovations. A preliminary review of the project indicates that the application, as proposed, is consistent with the Town zoning code.

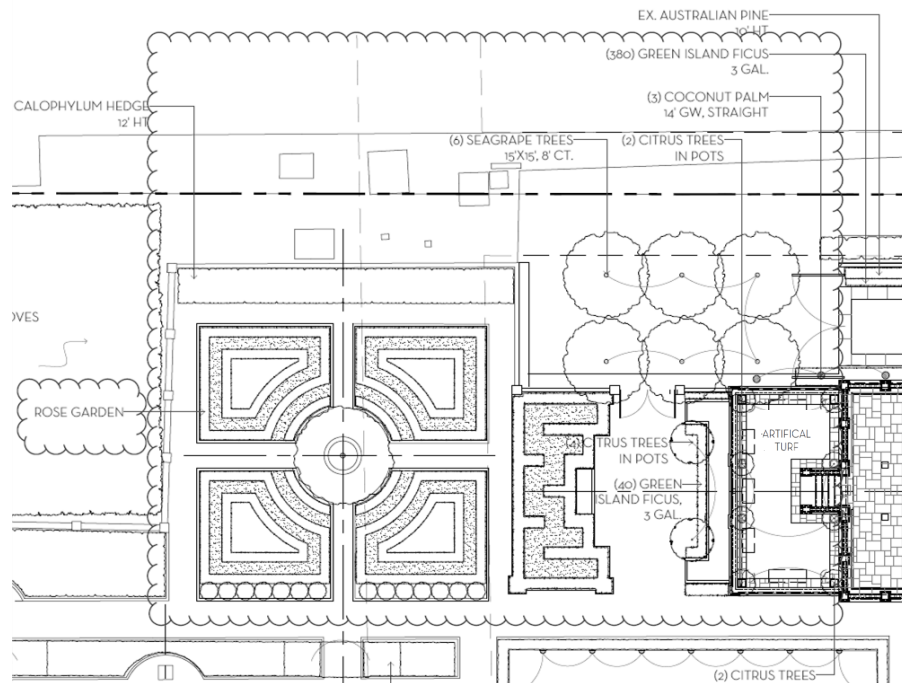

*Color Landscape Rendering*

The subject property is an ocean-to-lake estate located on S. Ocean Blvd, north of Sloan's Curve. This application includes modifications to landscape and hardscape elements, including the development of formal garden areas at various locations of the site including new walls, gates and gravel paths. Additionally, modifications to the front site wall and the replacement and relocation of an existing vehicular gate outside of the front setback area are proposed. With the relocation of the vehicular gates outside of the required front yard setback area, the maximum 8 ft height limit for vehicular and pedestrian gates is eliminated. Minor landscape modifications are proposed in relation to the changes. A pedestrian gate at the dock is proposed to match driveway gates.

*Formal Gardens and Gates – Areas of Modifications*

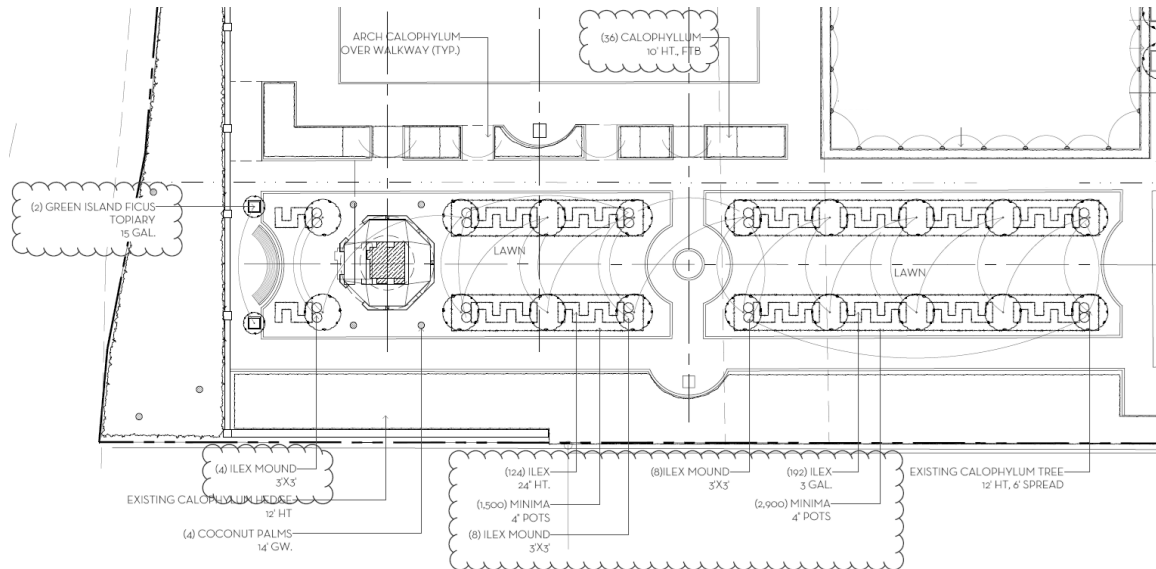

At the north-west part of the site, a formal rose garden area is proposed. Plantings in the garden include Rose bushes, Calophyllum hedges, Seagrape trees, Green Island Ficus, and potted citrus trees. Gravel pathways are proposed. Site walls with pedestrian gates are proposed to border the garden on the north and west sides, including new fountains. Staff will note that the artificial turf noted on sheet L1 is proposed on top of an upper floor terrace and not over landscape open space.

*Landscape Plan for Rose Garden*

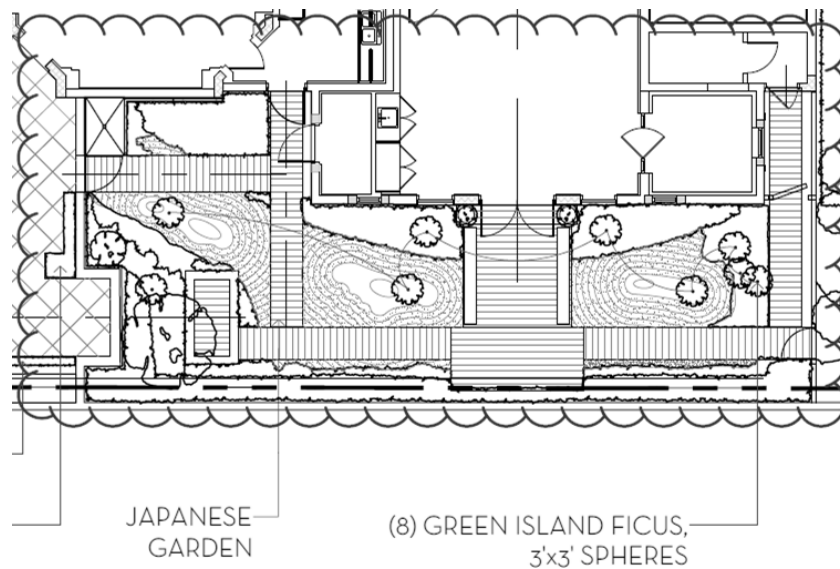

A linear garden is proposed at the south-west of the site, incorporating the folly structure which houses the cooling tower into the design. This garden area will feature gravel pathways,

Calophyllum hedges, Green Island Ficus topiaries, coconut palms, Ilex mounds and hedges, jasmine minima, and lawn area.

***Landscape plan for linear garden.***

At the south side of the main structure, a Japanese Garden is proposed featuring wood walkways, gravel garden pathways, and an outdoor shower. Plantings in this area include Green Island Ficus spheres.

***Landscape Plan for Japanese Garden***

New, relocated vehicular gates are proposed to replace existing vehicular gates at the front of the property and a new pedestrian gate is proposed at the dock. The gates are proposed in an iron scrollwork with concrete columns, caps and base. The height of the vehicular gate is proposed at 11 ft to the top of the scroll work. Because the vehicular gate is located outside of the front yard setback area, the regulations regarding the maximum height of driveway gates does not apply. The height of the pedestrian gate at the dock is proposed at 7' in height with balustrades flanking either side of the columns to match existing.

Approval of the project will require one (1) motion to be made by the Architectural Commission:

- WRB:JGM:BMF
